## **DETAILED ACTION**

### ***Election/Restrictions***

Applicant's election of claims 1-9 in the reply filed on 10/12/2004 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

### ***Allowable Subject Matter***

Claims 1-9 are allowed.

The following is an examiner's statement of reasons for allowance:

The reference (s) of record do not teach or suggest, either singularly or in combination at least the limitation of "a first resistance coupled between said first and second base terminals, wherein said first emitter area is greater than said second emitter area and one of said first emitter and collector terminals is mutually coupled with a like one of said second emitter and collector terminals; and a plurality of dummy transistors with mutually coupled base terminals coupled to said second base terminal, and mutually coupled emitter terminals and mutually coupled collector terminals coupled to said mutually coupled first and second parasitic substrate transistor circuit terminals" for claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
